#### **Risk Management Policy**

Risk management is embedded in the Company's operating framework. The Company believes that risk resilience is key to achieving higher growth. To this effect, there is a robust process in place to identify key risks and prioritise relevant action plans to mitigate these risks.

Risk Management framework is reviewed periodically by the Board, which includes discussing the management submissions on risks, prioritising key risks and approving action plans to mitigate such risks.

The Company has a duly approved Risk Management Policy. The objective of this policy is to have a well-defined approach to risk. The policy lays down broad guidelines for timely identification, assessment, and prioritisation of risks affecting the Company in the short and foreseeable future. The policy suggests framing an appropriate response action for the key risks identified, so as to make sure that risks are adequately addressed or mitigated.

The internal audit function is responsible to assist the Board on an independent basis with the complete review of risk assessments and associated management action plans.

#### **Vigil Mechanism**

There is a mechanism for directors and employees to report concerns about unethical behaviour, actual or suspected fraud, or violation of code of conduct. The mechanism also provides for adequate safeguard against the victimisation of employees who avail of the mechanism, and allow direct access to the Board in exceptional cases. The complaints or concerns, if any, received from any person are promptly redressed.

#### **Internal Financial Controls**

The Company has established a robust framework for internal financial controls. The Company has in place adequate controls, procedures and policies, ensuring orderly and efficient conduct of its business, including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of accounting records, and timely preparation of reliable financial information. During the year, such controls were assessed and no reportable material weaknesses in the design or operations were observed. Accordingly, the board is of the opinion that the Company's internal financial controls were adequate and effective during financial year 2021-22.

# FORM NO. MR-3 SECRETARIAL AUDIT REPORT

for the financial year ended March 31, 2022
[Pursuant to section 204(1) of the Companies Act, 2013 and rule 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
Nxtra Data Limited,
Bharti Crescent, 1, Nelson Mandela Road,
Vasant Kunj, Phase – II, New Delhi -110070

We have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by Nxtra Data Limited (hereinafter called 'the Company'). Secretarial Audit was conducted in a manner that provided us a reasonable basis for evaluating the corporate conducts/statutory compliances and expressing our opinion thereon.

#### Auditor's Responsibility:

Our responsibility is to express an opinion on the compliance of the applicable laws and maintenance of records based on audit. We have conducted the audit in accordance with the applicable Auditing Standards issued by The Institute of Company Secretaries of India. The Auditing Standards requires that the Auditor shall comply with statutory and regulatory requirements and plan and perform the audit to obtain reasonable assurance about compliance with applicable laws and maintenance of records.

Due to the inherent limitations of audit including internal, financial and operating controls, there is an unavoidable risk that some material misstatements or material non-compliances may not be detected, even though the audit is properly planned and performed in accordance with the Standards.

## Unmodified Opinion:

Based on our verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of secretarial audit, we hereby report that in our opinion, the Company has, during the audit period covering the financial year ended on March 31, 2022 (hereinafter called the 'Audit Period') complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

We have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company for the financial year ended on March 31, 2022 according to the provisions of:

- (i) The Companies Act, 2013 ('the Act') and the rules made thereunder;
- (ii) The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
- (iii) The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
- (iv) Foreign Exchange Management Act, 1999 and the rules and regulations made thereunder to the extent of Foreign Direct Investment; (External Commercial Borrowings and Overseas Direct Investment are not applicable to the Company during the Audit Period);
- (v) The following Regulations and Guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act');
  - (a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011; (Not Applicable to the Company during the Audit Period)
  - (b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015; (Not Applicable to the Company during the Audit Period)
  - (c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018; (Not Applicable to the Company during the Audit Period)
  - (d) The Securities and Exchange Board of India (Share Based Employee Benefits) Regulations, 2014 and the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021; (Not Applicable to the Company during the Audit Period)
  - (e) The Securities and Exchange Board of India (Issue and Listing of Debt Securities) Regulations, 2008 and the Securities and Exchange Board of India (Issue and Listing of Non-Convertible Securities) Regulations, 2021 to the extent of listing of Commercial Papers;
  - (f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993 regarding the Companies Act and dealing with client; (Not Applicable to the Company during the Audit Period)
  - (g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2009 and the Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021; (Not Applicable to the Company during the Audit Period) and
  - (h) The Securities and Exchange Board of India (Buyback of Securities) Regulations, 2018. (Not Applicable to the Company during the Audit Period)

We have also examined compliance with the applicable clauses of the following:

- (i) Secretarial Standards issued by The Institute of Company Secretaries of India.
- (ii) The Securities and Exchange Board of India (Listing Obligations and Disclosure requirements) Regulations, 2015 to the extent applicable to the Company.

During the period under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines and Standards etc. as mentioned above.

We further report that, having regard to the compliance system prevailing in the Company and on the examination of the relevant documents and records in pursuance thereof, on test-check basis the Company has complied with the Special Economic Zones Act, 2005 to the extent applicable to the Company.

# We further report that

The Board of Directors of the Company is duly constituted. The changes in the composition of the Board of Directors that took place during the period under review were carried out in compliance with the provisions of the Act.

Adequate notice is given to all directors to schedule the Board Meetings, agenda and detailed notes on agenda were sent at least seven days in advance and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

All decisions at Board Meetings and Committee Meetings are carried out unanimously as recorded in the minutes of the meetings of the Board of Directors or Committee of the Board, as the case may be.

We further report that there are adequate systems and processes in the Company commensurate with the size and operations of the Company to monitor and ensure compliance with applicable laws, rules, regulations and guidelines.

# We further report that during the audit period, the Company has

#### INDEPENDENT AUDITOR'S REPORT

#### To The Members of NXTRA DATA LIMITED

# Report on the Audit of the Financial Statements

# Opinion

We have audited the accompanying Financial Statements of NXTRA DATA LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2022, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year then ended, and a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, the changes in equity and its cash flows for the year ended on that date.

# **Basis for Opinion**

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing specified under section 143(10) of the Act ("SAs"). Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Financial Statements.

# **Key Audit Matters**

0

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Financial Statements of the current period. These matters were addressed in the context of our audit of the Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

# Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the Board's Report including annexures to Board Report, but does not include the Financial Statements and our auditor's report thereon.

- Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the

preparation and presentation of the Financial Statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

# Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to
  design audit procedures that are appropriate in the circumstances. Under section
  143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the
  Company has adequate internal financial controls system in place and the operating
  effectiveness of Company's internal financial controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of
  accounting and, based on the audit evidence obtained, whether a material uncertainty
  exists related to events or conditions that may cast significant doubt on the Company's
  ability to continue as a going concern. If we conclude that a material uncertainty exists,
  we are required to draw attention in our auditor's report to the related disclosures in
  the Financial Statements or, if such disclosures are inadequate, to modify our opinion.
  Our conclusions are based on the audit evidence obtained up to the date of our
  auditor's report. However, future events or conditions may cause the Company to
  cease to continue as a going concern.

Chartered

• Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

# **Report on Other Legal and Regulatory Requirements**

- 1. As required by Section 143(3) of the Act, based on our audit, we report that:
  - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
  - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
  - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
  - d) In our opinion, the aforesaid Financial Statements comply with the Ind AS specified under Section 133 of the Act.
  - e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164(2) of the Act.

f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended,
  - In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
  - i. The Company does not have any pending litigations which would impact its financial position.
  - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
  - There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company
  - iv. ## ANNEXURE "A" TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **NXTRA DATA LIMITED** ("the Company") as at March 31, 2022 in conjunction with our audit of the Financial Statements of the Company as at and for the year ended on that date.

# **Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("the Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ("Act").

## **Auditor's Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

# Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of Financial Statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of Financial Statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the Financial Statements.

# **Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Opinion**

In our opinion, to the best of our information and according to the explanations given to us the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on the criteria for internal financial control over financial reporting established by the Company considering the essential components of internal control stated in the Guidance Note.

- xi) In respect if fraud:
  - a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
  - b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
  - c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) and provided to us, when performing our audit.
- xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order I not applicable.
- xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the Financial Statements etc. as required by the applicable accounting standards.
- xiv) In respect of Internal audit:

SKINS

Chartered Accountants o

- a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- b) We have considered, the internal audit reports issued to the Company during the year and covering the period upto December 31, 2021 and the draft of the internal audit

reports where issued after the balance sheet date covering the period January 1, 2022 to March 31, 2022 for the period under audit.

- xv) In our opinion, during the year the Company has not entered into any non-cash transactions with any of its directors or directors of it's holding company or persons connected with such directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable.

## 1. Corporate information

Nxtra Data Limited ('the Company') is domiciled and incorporated in India as a public limited company. The registered office of the Company is situated at Bharti Crescent, 1, Nelson Mandela Road, Vasant Kunj, Phase – II, New Delhi – 110070.

The Company is principally engaged in the business of data center, managed services and sale of hardware.

## 2. Summary of significant accounting policies

## 2.1 Basis of preparation

These Financial Statements have been prepared to comply in all material respects with the Indian Accounting Standards ('Ind AS') as notified by the Ministry of Corporate Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('Act'), read together with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and other accounting principles generally accepted in India.

The Financial Statements are approved for issue by the Company's Board of Directors on May 30, 2022.

The Financial Statements are based on the classification provisions contained in Ind AS 1, 'Presentation of Financial Statements' and Division II of Schedule III (as amended) of the Companies Act, 2013. Further, for the purpose of clarity, various items are aggregated in the Balance Sheet and Statement of Profit and Loss. Nonetheless, these items are disaggregated separately in the notes to the Financial Statements, where applicable or required.

All the amounts included in the financial statements are reported in millions of Indian Rupee ('Rupee' or 'Rs.') and are rounded off to the nearest million, except per share data and unless stated otherwise. Further, due to rounding off, certain amounts are appearing as '0'.

The preparation of the said financial statements requires the use of certain critical accounting estimates and judgements. It also requires the management to exercise judgement in the process of applying the Company's accounting policies. The areas where estimates are significant to the financial statements, or areas involving a higher degree of judgement or complexity, are disclosed in note 3.

The accounting policies, as set out in the following paragraphs of this note, have been consistently applied, by the Company, to all the periods presented in the said financial statements, except in case of adoption of any new standards and / or amendments during the year.

To provide more reliable and relevant information about the effect of certain items in the Balance sheet and Statement of Profit and Loss, the Company has changed the classification of certain items. Previous year figures have been re-grouped or reclassified, to confirm to such current year's grouping / classifications. There is no impact on Equity or Net Profit to these regrouping / reclassifications.

## New Amendments adopted during the year

## a) Amendments to Ind AS

MCA vide notification no. G.S.R. 419(E) dated June 18, 2021 has issued the Companies (Indian Accounting Standards) Amendment Rules, 2021 which amends following Ind AS (as applicable to the Company):

- Ind AS 102, Share-based Payments
- Ind AS 107, Financial Instruments: Disclosures
- Ind AS 109, Financial Instruments
- Ind AS 116, Leases
- Ind AS 115, Revenue from Contracts with Customers
- · Ind AS 1, Presentation of Financial Statements
- Ind AS 8, Accounting Policies, Changes in Accounting Estimates and Errors
- Ind AS 12, Income Taxes
- Ind AS 16, Property, Plant and Equipment
- · Ind AS 27, Separate Financial Statements
- Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets

The amendments are applicable for annual periods beginning on or after April 1, 2021, however, these do not have material impact on the financial statements of the Company.

## b) Amendments to Schedule III Division II

MCA vide notification dated March 24, 2021, has amended disclosure requirements to Division II of Schedule III to the Act. The amendments are applicable from April 1, 2021.

#### Amendments to Ind AS issued but not yet effective

MCA vide notification no. G.S.R. 255(E) dated March 23, 2022 has issued the Companies (Indian Accounting Standards) Amendment Rules, 2022 which amends following Ind AS (as applicable to the Company):

- Ind AS 109, Financial Instruments
- Ind AS 16, Property, Plant and Equipment
- Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets

The amendments are applicable for annual periods beginning on or after April 1, 2022. The Company has evaluated the amendments and the impact is not expected to be material.

## 2.2 Basis of measurement

The financial statements have been prepared on the accrual and going concern basis, and the historical cost convention except where the Ind AS requires a different accounting treatment. The principal variations from the historical cost convention relate to financial instruments which are classified as fair value through profit or loss (refer note 2.8) – which are measured at fair value.

ata

#### Fair value measurement

Fair value is the price at the measurement date, at which an asset can be sold or a liability can be transferred, in an orderly transaction between market participants. The Company's accounting policies require measurement of certain financial instruments at fair values (either on a recurring or non-recurring basis).

The Company is required to classify the fair valuation method of the financial / non-financial assets and liabilities, either measured or disclosed at fair value in the financial statements, using a three level fair-value-hierarchy (which reflects the significance of inputs used in the measurement). Accordingly, the Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

The three levels of the fair-value-hierarchy are described below:

Level 1: Quoted (unadjusted) prices for identical assets or liabilities in active markets

Level 2: Significant inputs to the fair value measurement are directly or indirectly observable

Level 3: Significant inputs to the fair value measurement are unobservable

## 2.3 Foreign currency transactions

The financial statements are presented in Indian Rupee which is the functional and presentation currency of the Company.

Transactions in foreign currencies are initially recorded in the relevant functional currency at the exchange rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated into the functional currency at the closing exchange rate prevailing as at the reporting date with the resulting foreign exchange differences, on subsequent re-statement / settlement, recognised in the statement of profit and loss. Non-monetary assets and liabilities denominated in foreign currencies are translated into the functional currency using the exchange rate prevalent, at the date of initial recognition (in case they are measured at historical cost) or at the date when the fair value is determined (in case they are measured at fair value) – the resulting foreign exchange difference, on subsequent re-statement / settlement, recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or directly in equity.

The equity items denominated in foreign currencies are translated at historical cost.

#### 2.4 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current / non-current classification. Deferred tax assets and liabilities, and all assets and liabilities which are not current (as discussed in the below paragraphs) are classified as non-current assets and liabilities.

An asset is classified as current when it is expected to be realised or intended to be sold or consumed in normal operating cycle, held primarily for the purpose of trading, expected to be realised within twelve months after the reporting period, or cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

A liability is classified as current when it is expected to be settled in normal operating cycle, it is held primarily for the purpose of trading, it is due to be settled within twelve months after the reporting period, or there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

Separated embedded derivatives are classified basis the host contract

#### 2.5 Common control transactions

Transactions arising from transfers of assets / liabilities, interest in entities or businesses between entities that are under the common control, are accounted at historical carrying amounts. The difference, between consideration paid / received and the aggregate historical carrying amount of assets / liabilities and interest in entities acquired / disposed (other than impairment, if any), is recorded in capital reserve / retained earnings, as applicable.

## 2.6 Property, plant and equipment ('PPE')

An item is recognised as an asset, if and only if, it is probable that the future economic benefits associated with the item will flow to the Company and its cost can be measured reliably. PPE are initially recognised at cost. The initial cost of PPE comprises its purchase price (including non-refundable duties and taxes but excluding any trade discounts and rebates) and any directly attributable cost of bringing the asset to its working condition and location for its intended use.

Subsequent to initial recognition, PPE are stated at cost less accumulated depreciation and any impairment losses, if any. When significant parts of PPE are required to be replaced at regular intervals, the Company recognises such parts as separate component of assets. When an item of PPE is replaced, then its carrying amount is derecognised from the balance sheet and cost of the new item of PPE is recognised. Further, in case the replaced part was not being depreciated separately, the cost of the replacement is used as an indication to determine the cost of the replaced part at the time it was acquired.

Cost of assets not ready for intended use, as on the balance sheet date, is shown as capital work-in-progress ('CWIP'), advances given towards acquisition of PPE outstanding at each balance sheet date are disclosed under other non- current assets.

The expenditures that are incurred after the item of PPE has been available for use, such as repairs and maintenance, are normally charged to the statement of profit and loss in the year in which such costs are

incurred. However, in situations where the said expenditure can be measured reliably and is probable that future economic benefits associated with it will flow to the Company, it is included in the asset's carrying value or as a separate asset, as appropriate.

Depreciation on PPE is computed using the straight-line method over the estimated useful lives. The management basis its past experience and technical assessment has estimated the useful life, which is at variance with the life prescribed in Part C of Schedule II to the Act and has accordingly, depreciated the assets over such useful life.

The Company has established the estimated range of useful lives for different categories of PPE as follows:

Categories	Years
Building	20
Plant and Machinery	2-25
Computer	1-3
Office equipments	2 - 5
Furniture and Fixtures	5
Leasehold improvements	Lease term or 20 years, whichever is less

The useful lives, residual values and depreciation method of PPE are reviewed, and adjusted appropriately, at least as at each financial year end so as to ensure that the method and period of depreciation are consistent with the expected pattern of economic benefits from these assets. The effect of any change in the estimated useful lives, residual values and / or depreciation method are accounted prospectively, and accordingly the depreciation is calculated over the PPE's remaining revised useful life. The cost and the accumulated depreciation for PPE sold, scrapped, retired or otherwise disposed off are de-recognised from the Balance Sheet and the resulting gains / losses are included in the statement of profit and loss within other income / other expenses.

#### 2.7 Impairment of non-financial assets

#### PPE and Right-of-use assets ('ROU')

PPE (including CWIP) and ROU with definite lives, are reviewed for impairment, whenever events or changes in circumstances indicate that their carrying values may not be recoverable.

For the purpose of impairment testing, the recoverable amount (that is, higher of the fair value less costs to sell and the value in use) is determined on an individual asset basis, unless the asset does not generate cash flows that are largely independent of those from other assets, in which case the recoverable amount is determined at the cash-generating-unit ('CGU') level to which the said asset belongs. If such individual assets or CGU are considered to be impaired, the impairment to be recognised in the statement of profit and loss is measured by the amount by which the carrying value of the asset / CGU exceeds their estimated recoverable amount and allocated on pro-rata basis. A CGU is the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets.

#### 2.8 Financial instruments

#### a. Recognition, classification and presentation

The financial instruments are recognised in the balance sheet when the Company becomes a party to the contractual provisions of the financial instrument.

The Company determines the classification of its financial instruments at initial recognition.

The Company classifies its financial assets in the following categories: a) those to be measured subsequently at fair value through profit or loss, and b) those to be measured at amortised cost. The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

The Company has classified all the non-derivative financial liabilities measured at amortised cost.

The entire hybrid contract, financial assets with embedded derivatives, are considered in their entirety for determining the contractual terms of the cash flow and accordingly, the embedded derivatives are not separated. However, derivatives embedded in non-financial instrument / financial liabilities (measured at amortised cost) host contracts are classified as separate derivatives if their economic characteristics and risks are not closely related to those of the host contracts.

Financial assets and liabilities arising from different transactions are off-set against each other and the resultant net amount is presented in the balance sheet, if and only when, the Company currently has a legally enforceable right to set-off the related recognised amounts and intends either to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

#### b. Measurement - Non-derivative financial instruments

#### I. Initial measurement

At initial recognition, the Company measures the non-derivative financial instruments (except financial guarantee) at its fair value plus or minus, in the case of a financial instruments not at fair value through profit or loss, transaction costs. Otherwise, transaction costs are expensed in the statement of profit and loss.

#### II. Subsequent measurement - financial assets

The subsequent measurement of the non-derivative financial assets depends on their classification as follows:

## i. Financial assets measured at amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost using the effective-interest rate ('EIR') method (if the impact of discounting / any transaction costs is significant). Interest income from these financial assets is included in other income.

## ii. Financial assets at fair value through profit or loss ('FVTPL')

All financial assets that do not meet the criteria for amortised cost are measured at FVTPL. Interest (basis EIR method) income from financial assets at FVTPL is recognised in the statement of profit and loss within other income separately from the other gains / losses arising from changes in the fair value.

#### iii. Impairment

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition. If credit risk has not increased significantly, twelve months, expected credit loss (ECL) is used to provide for impairment loss, otherwise lifetime ECL is used.

However, only in case of trade receivables, the Company applies the simplified approach which requires expected lifetime losses to be recognised from initial recognition of the receivables.

### III. Subsequent measurement - financial liabilities

The financial liabilities are subsequently measured at amortised cost using the EIR method (if the impact of discounting / any transaction costs is significant).

#### c. Measurement - derivative financial instruments

Derivative financial instruments, including separated embedded derivatives are classified as financial instruments at fair value through profit or loss - Held for trading. Such derivative financial instruments are initially recognised at fair value. They are subsequently measured at their fair value, with changes in fair value being recognised in the statement of profit and loss.

#### d. Derecognition

The financial assets are de-recognised from the balance sheet when the rights to receive cash flows from the financial assets have expired, or have been transferred and the Company has transferred substantially all risks and rewards of ownership. The financial liabilities are derecognised from the balance sheet when the underlying obligations are extinguished, discharged, lapsed, cancelled, expires or legally released. The resultant impact of derecognition is recognised in the statement of profit and loss.

#### 2.9 Leases

The Company, at the inception of a contract, assesses the contract as, or containing, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether the contract involves the use of an identified asset, the Company has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and the Company has the right to direct the use of the asset.

### Company as a lessee

The Company recognises a ROU and a corresponding lease liability with respect to all lease agreements in which it is the lessee in the Balance Sheet. The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted by using the incremental borrowing rate (as the rate implicit in the lease cannot be readily determined). Lease liabilities include the net present value of fixed payments (including any in-substance fixed payments) and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

Subsequently, the lease liability is measured at amortised cost using the incremental borrowing rate. It is remeasured when there is a change in future lease payments including or when the lease contract is modified and the lease modification is not accounted for as a separate lease. The corresponding adjustment is made to the carrying amount of the ROU, or is recorded in profit or loss if the carrying amount of the related ROU has been reduced to zero and there is a further reduction in the measurement of the lease liability.

ROU are measured at cost, comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date and any initial direct costs less any lease incentives received.

Subsequent to initial recognition, ROU are stated at cost less accumulated depreciation and any impairment losses and adjusted for certain remeasurements of the lease liability. Depreciation is computed using the straight-line method from the commencement date to the end of the useful life of the underlying asset or the end of the lease term, whichever is shorter. The estimated useful lives of ROU are determined on the same basis as those of the underlying asset.

In the Balance Sheet, the ROU and lease liabilities are presented separately. In the statement of profit and loss, interest expense on lease liabilities are presented separately from the depreciation charge for the ROU. Interest expense on the lease liability is a component of finance costs, which are presented separately in the statement of profit or loss. In the statement of cash flows, cash payments for the principal portion of lease payments and the interest portion of lease liability are presented as financing activities, and short-term lease payments and payments for leases of low-value assets and variable lease payments not included in the measurement of the lease liability, if any, as operating activities.

## Short-term leases and leases of low-value assets

The Company has elected not to recognise ROU and lease liabilities for short term leases that have a lease term of twelve months or less and leases of low value assets. The Company recognises lease expense associated with these leases in Statement of Profit and Loss.

#### 2.10 Taxes

The income tax expense comprises of current and deferred income tax. Income tax is recognised in the statement of profit and loss, except to the extent that it relates to items recognised in the other

comprehensive income or directly in equity, in which case the related income tax is also recognised accordingly.

#### a. Current tax

The current tax is calculated on the basis of the tax rates, laws and regulations, which have been enacted or substantively enacted as at the reporting date. The payment made in excess / (shortfall) of the Company's income tax obligation for the period are recognised in the balance sheet under non-current assets as income tax assets / under current liabilities as current tax liabilities.

Any interest, related to accrued liabilities for potential tax assessments are not included in income tax charge or (credit), but are rather recognised within finance costs.

The Company periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation. The Company considers whether it is probable that a taxation authority will accept an uncertain tax treatment. If the Company concludes it is probable that the taxation authority will accept an uncertain tax treatment, it determines the taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates consistently with the tax treatment used or planned to be used in its income tax filings. If the Company concludes it is not probable that the taxation authority will accept an uncertain tax treatment, the entity reflects the effect of uncertainty in determining the related taxable profit (tax loss), tax bases, unused tax losses, unused tax credits or tax rates.

#### b. Deferred tax

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying values in the financial statements. Deferred tax is also recognised in respect of carried forward tax losses and tax credits. However, deferred taxes are not recognised if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets are recognised only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised. The Company considers the projected future taxable income and tax planning strategies in making this assessment.

The unrecognised deferred tax assets / carrying amount of deferred tax assets are reviewed at each reporting date for recoverability and adjusted appropriately.

Deferred tax is determined using tax rates (and laws) that have been enacted or substantively enacted by the reporting date and are expected to apply when the asset is realised or the liability is settled.

Income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the balance sheet, if and only when, (a) the Company currently has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) when it relate to income tax levied by the same taxation authority and where there is an intention to settle the current income tax balances on net basis.

#### 2.11 Inventories

Inventories are stated at the lower of cost (determined using the first-in-first-out method) and net realisable value. The costs comprise its purchase price and any directly attributable cost of bringing the inventories to its present location and condition. Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to make the sale.

## 2.12 Cash and cash equivalents

Cash and cash equivalents include cash in hand, bank balances and any deposits with original maturities of three months or less (that are readily convertible to known amounts of cash and cash equivalents and subject to an insignificant risk of changes in value). However, for the purpose of the statement of cash flows, in addition to above items, any bank overdrafts / cash credits that are integral part of the Company's cash management, are also included as a component of cash and cash equivalents.

#### 2.13 Equity Share capital

Ordinary shares are classified as equity when the Company has an un-conditional right to avoid delivery of cash or another financial asset, that is, when the dividend and repayment of capital are at the sole and absolute discretion of the Company and there is no contractual obligation whatsoever to that effect.

### 2.14 Employee benefits

The Company's employee benefits mainly include wages, salaries, bonuses, defined contribution to plans, defined benefit plans, compensated absences, deferred compensation and share based payments. The employee benefits are recognised in the year in which the associated services are rendered by the Company employees. Short-term employee benefits are recognised in statement of profit and loss at undiscounted amounts during the period in which the related services are rendered.

## a. Defined contribution plans

The contributions to defined contribution plans are recognised in statement of profit or loss as and when the services are rendered by employees. The Company has no further obligations under these plans beyond its periodic contributions.

## b. Defined benefit plans

In accordance with the local laws and regulations, all the employees are entitled for the Gratuity plan. The said plan requires a lump-sum payment to eligible employees (meeting the required vesting service condition) at retirement or termination of employment, based on a pre-defined formula.

The Company provides for the liability towards the said plans on the basis of actuarial valuation carried out quarterly as at the reporting date, by an independent qualified actuary using the projected-unit-credit method.

The obligation towards the said benefits is recognised in the balance sheet, at the present value of the defined benefit obligations. The present value of the said obligation is determined by discounting the estimated future cash outflows, using interest rates of government bonds.

The interest income / (expense) are calculated by applying the above mentioned discount rate to the plan assets and defined benefit obligations liability. The net interest income / (expense) on the net defined benefit liability is recognised in the statement of profit and loss. However, the related re-measurements of the net defined benefit liability are recognised directly in the other comprehensive income in the period in which they arise. The said re-measurements comprise of actuarial gains and losses (arising from experience adjustments and changes in actuarial assumptions), the return on plan assets (excluding interest). Re-measurements are not re-classified to the statement of profit and loss in any of the subsequent periods.

#### c. Other long-term employee benefits

The employees of the Company are entitled to compensated absences as well as other long-term benefits. Compensated absences benefit comprises of encashment and availment of leave balances that were earned by the employees over the period of past employment.

The Company provides for the liability towards the said benefit on the basis of actuarial valuation carried out quarterly as at the reporting date, by an independent qualified actuary using the projected-unit-credit method. The related re-measurements are recognised in the statement of profit and loss in the period in which they arise.

## d. Share-based payments

The Company operates equity-settled employee share-based compensation plans, under which the Company receives services from employees as consideration for stock options towards shares of the Company.

In case of equity-settled awards, the fair value of stock options (at grant date) is recognised as an expense in the statement of profit and loss within employee benefits as employee share-based payment expenses over the vesting period, with a corresponding increase in share-based payment reserve (a component of equity).

The total amount so expensed is determined by reference to the grant date fair value of the stock options granted, which includes the impact of any market performance conditions and non-vesting conditions but excludes the impact of any service and non-market performance vesting conditions. However, the non-market performance vesting and service conditions are considered in the assumption as to the number of options that are expected to vest. The forfeitures are estimated at the time of grant and reduce the said expense rateably over the vesting period.

The expense so determined is recognised over the requisite vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. As at each reporting date, the Company revises its estimates of the number of options that are expected to vest, if required.

It recognises the impact of any revision to original estimates in the period of change. Accordingly, no expense is recognised for awards that do not ultimately vest, except for which vesting is conditional upon a market performance / non-vesting condition. These are treated as vested irrespective of whether or not the market / non-vesting condition is satisfied, provided that service conditions and all other non-market performance are satisfied.

Where the terms of an award are modified, in addition to the expense pertaining to the original award, an incremental expense is recognised for any modification that results in additional fair value, or is otherwise beneficial to the employee as measured at the date of modification.

Where an equity-settled award is cancelled or settled during the vesting period (other than a grant cancelled by forfeiture when the vesting conditions are not satisfied), company shall account for the cancellation or settlement as an acceleration of vesting, and shall therefore recognise immediately the amount that otherwise would have been recognised for services received over the remainder of the vesting period.

#### 2.15 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources will be required to settle the said obligation, and the amounts of the said obligation can be reliably estimated.

Provisions are measured at the present value of the expenditures expected to be required to settle the relevant obligation (if the impact of discounting is significant), using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to un-winding of interest over passage of time is recognised within finance costs.

## 2.16 Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made. Contingent assets are not recognised and disclosed only where an inflow of economic benefits are probable.

#### 2.17 Revenue recognition

Revenue is recognised upon transfer of control of promised products or services to the customer at the consideration which the Company has received or expects to receive in exchange of those products or services, net of any taxes / duties, discounts and process waivers.

(All amounts are in millions of Indian Rupee; unless stated otherwise)

Revenue is recognised when, or as, each distinct performance obligation is satisfied. The main categories of revenue and the basis of recognition are as follows:

## a) Service revenue

Service revenue mainly pertains to the revenue from data center and managed services which are recognised post completion of performance obligation.

Revenues in excess of invoicing are classified as unbilled revenue while invoicing / collection in excess of revenue are classified as deferred revenue / advance from customers.

## b) Equipment sales

Equipment sales mainly pertain to sale of telecommunication equipment and related accessories for which revenue is recognised when the control of equipment is transferred to the customer, i.e. transferred at a point in time.

## c) Interest income

The interest income is recognised using the EIR method.

#### 2.18 Borrowing costs

Borrowing costs consist of interest and other ancillary costs that the Company incurs in connection with the borrowing of funds. The borrowing costs directly attributable to the acquisition or construction of any asset that takes a substantial period of time to get ready for its intended use or sale are capitalised. Other borrowing costs are recognised in the statement of profit and loss within finance costs in the period in which they are incurred.

## 2.19 Exceptional items

Exceptional items refer to items of income or expense within the statement of profit and loss from ordinary activities which are non-recurring and are of such size, nature or incidence that their separate disclosure is considered necessary to explain the performance of the Company.

#### 2.20 Dividends paid

Dividend to shareholders is recognised as a liability and deducted from equity, in the year in which the dividends are approved by the shareholders. However, interim dividends declared by the Board of Directors, which does not need shareholders' approval, are recognised as a liability and deducted from retained earnings, in the year in which the dividends are so declared.

#### 2.21 Earnings per share ('EPS')

The Company presents the Basic and Diluted EPS.

Basic EPS is computed by dividing the profit for the year attributable to the shareholders of the Company by the weighted average number of shares outstanding during the year.

Diluted EPS is computed by adjusting, the profit for the year attributable to the shareholders and the weighted average number of shares considered for deriving Basic EPS, for the effects of all the shares that could have been issued upon conversion of all dilutive potential shares. The dilutive potential shares are adjusted for the proceeds receivable had the shares been actually issued at fair value. Further, the dilutive potential shares are deemed converted as at beginning of the period, unless issued at a later date during the year.

## 2.22 Segment reporting

The Company operates only in one business segment viz. to carry on the business of data centre, managed services, which is the only reportable segment. Accordingly, no further operating segment financial information is disclosed.

## 3. Key sources of estimation uncertainties and critical judgements

The estimates and judgements used in the preparation of the said financial statements are continuously evaluated by the Company, and are based on historical experience and various other assumptions and factors (including expectations of future events), that the Company believes to be reasonable under the existing circumstances. The said estimates and judgements are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

Although the Company regularly assesses these estimates, actual results could differ materially from these estimates - even if the assumptions underlying such estimates were reasonable when made, if these results differ from historical experience or other assumptions do not turn out to be substantially accurate. The changes in estimates are recognised in the financial statements in the period in which they become known.

## 3.1 Key sources of estimation uncertainties

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying values of assets and liabilities within the next financial year are discussed below: -

#### a. Useful lives of PPE

As described at note 2.6 above, the Company reviews the estimated useful lives of PPE at the end of each reporting period. After considering market conditions, industry practice, technological developments and other factors, the Company determined that the current useful lives of its PPE remain appropriate. However, changes in economic conditions of the markets, competition and technology, among others, are unpredictable and they may significantly impact the useful lives of PPE and therefore the depreciation charges.

#### b. Allowance for impairment of trade receivables

The expected credit loss is mainly based on the ageing of the receivable balances and historical experience. The receivables are assessed on an individual basis or grouped into homogeneous groups and assessed for

impairment collectively, depending on their significance. Moreover, trade receivables are written off on a case-to-case basis if deemed not to be collectible on the assessment of the underlying facts and circumstances.

## c. Fair valuation of compulsorily convertible preference shares ('CCPS')

Considering the terms of issuance of CCPS, the accounting is complex and involved significant management judgement. The fair value of CCPS is determined through application of valuation techniques and the use of assumptions and estimates.

# 3.2 Critical judgement in applying the Company's accounting policies Determining the incremental borrowing rate for lease contracts

The initial recognition of lease liabilities at present value requires the identification of an appropriate discount rate. The Company has determined the incremental borrowing rate based on considerations specific to the leases by taking consideration of the risk free borrowing rates as adjusted for country / company specific risk premiums (basis the readily available data points).

## 4. Significant transactions / new developments

- a) During the previous year ended March 31, 2021, the Company has entered into an Investment Agreement with CA Cloud Investments (formerly Comfort Investments II) ('investor'). In accordance with the said agreement, the investor will subscribe to 17,880,000 compulsorily convertible preference shares ('CCPS'), each at Rs. 1,000, and 10 equity shares, each at Rs. 5,780 (including securities premium of Rs. 5,770), of Nxtra Data Limited for an aggregate consideration of Rs. 17,880 in three separate tranches. During the previous year ended March 31, 2021, the Company has received the first tranche of Rs. 7,000 and has allotted 7,000,000 CCPS and 10 equity shares to the investor. During the current year ended March 31, 2022, the Company has received the second and third tranche of Rs. 10,880 and has allotted 10,880,000 CCPS to the investor. These amounts have been classified as liability (refer note 16).
- b) On March 16, 2022, the Company got its commercial papers listed for Rs. 2,450 which will get matured on February 7, 2023. The listing is pursuant to SEBI circulars SEBI/HO/IMD/DF2/P/2019/104 dated October 1, 2019 and SEBI/HO/DDHS/DDHS/CIR/P/2019/115 dated October 22, 2019 (refer note 14).
- c) The Code on Social Security, 2020 ('Code') relating to employee benefits during employment and post-employment benefits received Presidential assent in September 2020. The Code has been published in the Gazette of India. The Ministry of Labour and Employment ('Ministry') has issued draft of the Code on Social Security (Central) Rules, 2020 on November 13, 2020 and has invited suggestions from stakeholders which are under active consideration by the Ministry. However, the date on which the Code will come into effect has not been notified. The Company is assessing the impact of the Code and will record any related impact in the period in which the Code becomes effective.

## 5. Property plant and equipment ('PPE')

The following table presents the reconciliation of changes in the carrying value of PPE for the year ended March 31, 2022 and March 31, 2021:

Share price for the options exercised during the year ended (Rs.)	=	=

The fair value of options is measured using Black-Scholes valuation model. The key inputs used in the measurement of the grant date fair valuation of equity settled plans is given in the table below:

	For the year ended	
	March 31, 2022	March 31, 2021
Risk free interest rates	5.34% to 6.19%	*
Expected life	48 to 84 months	(2)
Volatility	24%	*
Dividend yield	0%	350
Exercise price (Rs.)	5,780	(e)
Weighted average share price (Rs.)	4,232	·

The expected life of the stock options is based on the Company's expectations and is not necessarily indicative of exercise patterns that may actually occur. The expected volatility reflects the assumption that the historical volatility over a period similar to the expected life of the options is indicative of future trends, which may not necessarily be the actual outcome. Further, the expected volatility is based on the weighted average volatility of the comparable benchmark companies.

## 23.2 Employee benefits

The details of significant defined benefit obligations are as follows:

	For the Year Ended			
	March 3	31, 2022	March 31, 2021	
	Gratuity	Compensated absences	Gratuity	Compensated absences
Obligation:				
Obligation as at beginning of the year	25	10	22	9

Remeasurements	(2)	(2)	4	
Present value of obligation	27	12	25	10
Current portion	6	12	2	10
Non-current portion	21		23	

As of March 31, 2022, expected contributions for the next annual reporting period is Rs. 7.

## **Amount recognised in Other Comprehensive Income**

	For the year ended	
	March 31, 2022	March 31, 2021
Gains / (Losses) from change in actuarial assumptions	2	(4)
Remeasurements of defined benefit plans	2	(4)

## Due to its defined benefit plans, the Company is exposed to the following significant risks:

Changes in bond yields - A decrease in bond yields will increase plan liability.

**Salary risk** - The present value of the defined benefit plans liability is calculated by reference to the future salaries of the plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The financial (per annum rates) and demographic assumptions used to determine defined benefit obligations are as follows:

	As of	
	March 31, 2022	March 31, 2021
Discount Rate	7.2%	6.8%
Rate of salary increase	7.0%	7.5%
Rate of attrition	10% to 35%	0% to 17%
Retirement age	58	58

## **Sensitivity analysis**

The Company regularly assesses these assumptions with the projected long-term plans and prevalent industry standards.

The impact of sensitivity due to changes in the significant actuarial assumptions on the defined benefit obligations is given in the table below:

		As of		
	Change in	March 31, 2022	March 31, 2021	
		Graf	tuity	
Discount Rate	+1%	(1)	(2)	
	-1%	1	2	
Salary Growth Rate	+1%	1	2	
	-1%	(1)	(2)	

The above sensitivity analysis is determined based on a method that extrapolates the impact on the net defined benefit obligations, as a result of reasonable possible changes in the significant actuarial assumptions. Further, the above sensitivity analysis is based on a reasonably possible change in a particular underlying actuarial assumption, while assuming all other assumptions to be constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

The table below summarises the undiscounted maturity profile and duration of the gratuity liability:

	As of	
	March 31, 2022 Ma	rch 31, 2021

### 30. Financial and capital risk

### 30.1 Financial risk

The business activities of the Company expose it to a variety of financial risks, namely market risks (that is, foreign exchange risk, interest rate risk and price risk), credit risk and liquidity risk. The Company's risk management focus on the unpredictability of these elements and seek to minimise the potential adverse effects on its financial performance.

The financial risk management for the Company is driven by the Company's senior management ('CSM'), in close co-ordination with the operating entities and internal / external experts subject to necessary supervision. The Company does not undertake any speculative transactions either through derivatives or otherwise. The CSM are accountable to the Board of Directors ('BOD') and Audit Committee. They ensure that the Company's financial risk taking activities are governed by appropriate financial risk governance framework, policies and procedures. The BOD periodically reviews the exposures to financial risks, and the measures taken for risk mitigation and the results thereof.

## (i) Foreign currency risk

Foreign exchange risk arises on all recognised monetary assets and liabilities, and any highly probable forecasted transactions, which are denominated in a currency other than the functional currency of the Company. The Company has foreign currency trade payables and receivables. Foreign exchange exposure arises from trade receivables and trade payables denominated in foreign currencies.

The foreign exchange risk management policy of the Company requires it to manage the foreign exchange risk by transacting as far as possible in the functional currency. Moreover, the Company monitors the movements in currencies in which the vendors are payable and manage any related foreign exchange risk, which inter-alia include entering into foreign exchange derivative contracts as considered appropriate and whenever necessary.

### **Foreign currency sensitivity**

The impact of foreign exchange sensitivity on profit for the year and other comprehensive income is given in the table below:

	Change in currency exchange rate	Effect on profit before tax	Effect on equity (OCI)
For the year ended March 31, 2022			
US Dollars	۱5%	15	
US Dollars	-5%	(15)	277
For the year ended March 31, 2021			
US Dollars	+5%	13	-
US Dollars	-5%	(13)	-

The sensitivity disclosed in the above table is mainly attributable to, in case of foreign exchange gains / (losses) on translation of USD denominated trade and other receivables and trade and other payables.

The above sensitivity analysis is based on a reasonably possible change in the underlying foreign currency against the respective functional currency while assuming all other variables to be constant.

Based on the movements in the foreign exchange rates historically and the prevailing market conditions as at the reporting date, the Company's management has concluded that the above mentioned rates used for sensitivity are reasonable benchmarks.

### (ii) Interest rate risk

As the Company does not have exposure to any floating interest bearing assets, or any significant long-term fixed-interest bearing assets, its interest income and related cash inflows are not affected by changes in market interest rates. Consequently, the Company's interest rate risk arises mainly from borrowings.

### **Borrowings**

Borrowings with floating and fixed interest rates expose the Company to cash flow and fair value interest rate risk respectively. However, the short-term borrowings of the Company do not have a significant fair value or cash flow interest rate risk due to their short tenure. Accordingly, the components of the debt portfolio are determined by the CSM in a manner which enables the Company to achieve an optimum debt-mix basis its overall objectives and future market expectations.

The Company monitors the interest rate movement and manages the interest rate risk based on its risk management policies, which inter-alia include entering into interest swaps contracts, as considered appropriate and whenever necessary.

### **Interest rate sensitivity of borrowings**

The impact of the interest rate sensitivity on profit before tax is given in the table below:

Interest rate sensitivity	Increase / decrease in basis points	Effect on profit before tax
For the year ended March 31, 2022		
INR - borrowings	+100	S#0
	-100	21
For the year ended March 31, 2021		
INR - borrowings	+100	(44)
	-100	44

The sensitivity disclosed in the above table is attributable to floating-interest rate borrowings and the interest swaps.

# (iii) Credit risk

Credit risk refers to the risk of default on its obligation by the counter party, the risk of deterioration of credit worthiness of the counter party as well as concentration risks of financial assets, and thereby exposing the Company to potential financial losses.

The Company is exposed to credit risk mainly with respect to trade receivables, investment in bank deposits and mutual funds.

### **Trade receivables**

The trade receivables of the Company are typically non-interest bearing unsecured and derived from sales made to a number of independent customers including group entities. Majority of the revenue is earned from the related parties (refer note 28). The credit period provided by the Company to its customers generally ranges between 0-90 days.

For details of trade receivables from related-parties, refer note 28.

The Company uses a provision matrix to measure the expected credit loss of trade receivables, which comprise a very large numbers of small balances. Refer Note 10 for details on the impairment of trade receivables. Based on the industry practices and the business environment in which the entity operates, management considers that the trade receivables are impaired if the payments are more than 90 days past due.

		Pas	Past due but not impaired					
	Neither past due nor impaired	Less than 30 days	30 to 60 days	60 to 90 days	above 90 days	Total		
Trade Receivables as of March 31, 2022 Trade Receivables as of March 31, 2021	1,037 303	510 165	925 127	236 165	168 62	2,876 822		

The Company performs on going credit evaluations of its customers' financial condition and monitors the credit worthiness of its customers to which it grants credit in the ordinary course of business. Consequently, the allowance for impairment of trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables.

### **Financial Instruments and Cash Deposits**

The Company's treasury, in accordance with the board approved policy, maintains its cash and cash equivalents, deposits and investment in mutual funds with banks, financial and other institutions, having good reputation and past track record, and high credit rating. Similarly, counter-parties of the Company's other receivables carry either no or very minimal credit risk. Further, the Company reviews the credit-worthiness of the counter-parties (on the basis of its ratings, credit spreads and financial strength) of all the above assets on an on-going basis, and if required, takes necessary mitigation measures.

### (iv) Price risk

The Company invests its surplus funds in various mutual funds, and fixed deposits. In order to manage its price risk arising from investments, the Company diversifies its portfolio in accordance with the limits set by the risk management policies.

## (v) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. Accordingly, as a prudent liquidity risk management measure, the Company closely monitors its liquidity position and deploys a robust cash management system. To manage liquidity risk, the Company monitors its

net operating cash flows and maintains an adequate level of cash and cash equivalents to finance the Company's operation and mitigate the effects of fluctuations in cash flows.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments:

### 30.2 Capital Risk

The Company's objective while managing capital is to safeguard its ability to continue as a going concern (so that it is enabled to provide returns and create value for its shareholders, and benefits for other stakeholders), support business stability and growth, ensure adherence to the covenants and restrictions imposed by lenders and / or relevant laws and regulations, and maintain an optimal and efficient capital structure so as to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may issue new shares, declare dividends, return capital to shareholders, etc.

The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements.

The Company monitors capital using a gearing ratio calculated as below:

	<b>A</b> s	of
	March 31, 2022	March 31, 2021
Borrowings	2,343	4,400
Less: Cash and Cash equivalents	1,869	124

### 31. Fair Value of financial assets and liabilities

The category wise details as to the carrying value and fair value of the Company's financial instruments are as follows:

		Carrying value a	s of	Fair value	as of
	Level	March 31, 2022 Ma	rch 31, 2021	March 31, 2022	March 31, 2021

Other financial liabilities		19,337	7,354	19,337	7,354
	_	23,789	14,761	23,789	14,761

The following methods / assumptions were used to estimate the fair values.

The carrying value of trade receivables, trade payable, short term borrowings, floating-rate long-term borrowings, other current financial assets and liabilities approximate their fair value mainly due to the short-term maturities of these instruments.

The fair value of non-current financial assets, other long-term borrowings and other financial liabilities is estimated by discounting future cash flows using current rates applicable to instruments with similar terms, currency, credit risk and remaining maturities.

The following table describes the key inputs used in the valuation (basis discounted cash flow technique) of Level 2 & Level 3 financial assets / liabilities as of March 31, 2022 and March 31, 2021:

Financial assets / liabilities	Inputs used
Investments	Prevailing interest rates in market, Inflation rates
Derivative Instruments	Prevailing interest rates in market inflation rates

During the year ended March 31, 2022 and March 31, 2021, there were no transfers between Level 1 and Level 2 fair value measurements.

# Nxtra Data Limited Notes to Financial Statements (All amounts are in millions of Indian Rupee; unless stated otherwise)

# 32. Ratios
